

Acting as an Innovator

A course for teachers with a passion to develop the future of education

Four-month course, one module per month

Locally run 2-day workshops once a month

Online mentoring sessions

Optional study visit to Finland

Personal development initiative

Globally recognized Finnish diploma

Finland is a leading country in education, workforce development and innovation.

Finnish teachers take pride in being lifelong learners, actively developing their own teaching and innovation skills.

This course, based on the Finnish innovation know-how, gives practical tools and support in introducing frugal innovation initiatives within one's organization.

International participants will be exposed to new ways of thinking and doing, network, get support from other like-minded professionals and receive a practical toolbox to help their organizations in the process of ideating and implementing innovative initiatives.

Successful participants will receive a globally recognized diploma from Omnia The Joint Authority of Education. Assessment is based on Finnish National Agency of Education standards.

Module 1 – Having an Innovator's Mindset

- Introduction to innovation and culture of experimentation
- Benchmarking innovative education projects

Module 2 – From Ideas into Innovations

- Identifying challenges in need of solutions
- Defining the challenges and working out action plans

Module 3 – Turning Innovations into Practices

- The piloting process
- From piloting to scaling and spreading good practice

Module 4 – Displaying the Results

- Networking
- Displaying results
- Creating learning communities
