ENTREPRENEURSHIP TRAINING

Omnia Education Partnerships Ltd.

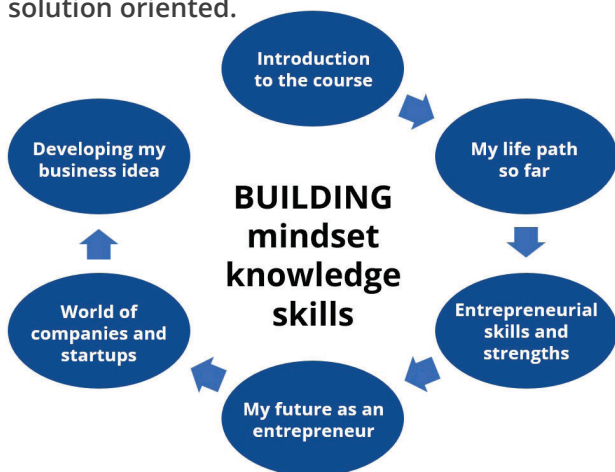

Finland is a leading country in education, entrepreneurship and innovation. 98% of Finnish companies are SME's and therefore we take the training of entrepreneurs and an entrepreneurial mindset seriously.

OEP offers a wide range of courses related to entrepreneurship:

- Teacher professional development for k-12 and vocational teachers on developing the students' entrepreneurial mindset
- Future entrepreneurs course with teaching guide and study material for partnering schools offering entrepreneurship as an elective subject
- The Finnish Further Qualification for Entrepreneurs with a Launch and a Growth track

Future Entrepreneurs, 2 months part-time training for teachers for 9-month course for students (17 competence points).

Challenges students to develop their mindset, seek opportunities and become proactive and solution oriented.

The Further Qualification for Entrepreneurs, part-time course, duration 8 months (150 competence points).

The program builds on the core challenges of all startups.

The courses can be offered through a train the trainer approach with a local certified partner organization or in a blended learning format online and at any location. All participants who pass the competency-based assessment process receive an official Finnish Certificate or Diploma depending on the length of the course.
